Affordable Small Business Websites

Every small business website we create starts off with a Base Site. This is the foundation for whatever type of website you need. For some, the Base Site may be all they need; others will need to add on several more pages, tools and features to accomplish their goals. Either way, we will work with you to help determine the most cost effective route to accomplish what you desire. And, everything will be spelled out, up front, before we begin actually building your new website.

BASE Site Packages

Mini Site - $499

- Home
- About
- Contact
- 3 standard pages

Business - $699

- Home
- About
- Contact
- 4 standard pages
- Site Map
- Privacy
- SEO Basics

eCommerce - $899

- Home
- About
- Contact
- Product Gallery
- Shopping Cart
- 4 Standard pages
- Site map
- Privacy
- SEO Basics

NOTE:

Remember, the BASE packages are used as a starting point only. This may be all you need, however, we can add pages and features to make your site as large and robust as you desire.
